General K. E. Fields
General Manager
Atomic Energy Commission
Washington 25, D. C.

Dear General Fields:

Recently, the transfer of administrative responsibility for the operation of the Government Printing Office - State Service Printing Plant to the Central Intelligence Agency was approved by the Public Printer and the Joint Committee on Printing. This transfer, in which the Atomic Energy Commission concurred by letter of October 19, 1956, became effective on the 13th of January 1957.

This Agency will continue to provide classified printing services to the Atomic Energy Commission through this facility in accordance with the needs of the Commission. I do not anticipate any major changes which will affect the present procedures. Requisitions should continue to be sent directly to Mr. [redacted] at this Agency's Administration Building since the printing facility will continue to operate in its present location until further notice. The requisition form presently used for ordering printing from this facility should continue to be used. The Atomic Energy Commission will be billed monthly by the Agency on Standard Form No. 1080 for printing completed and delivered during that period.

STATINTL

Only employees with AEC "Q" clearance will be assigned to the Administration Building printing plant. Therefore, all Atomic Energy Commission printing will be handled the same as it has been in the past and only employees having proper clearance will have access to such work.

I would like to express appreciation for your assistance in this matter and to assure you of the Agency's fullest cooperation and support for the future.
